

Hospice Calgary guides children, teens and adults through the grieving process as they face a life threatening illness and death of a loved one. Our team of professionals provides individual, family and group support as well as 24 hour end-of-life care. We operate two centres of care: Sage Centre for counselling and education services and Rosedale Hospice for residential end-of-life care.

Rosedale Hospice is our residential end-of-life cancer care facility. It is a quiet, peaceful home where patients and their family and friends are cared for in a supportive environment. We have a full complement of staff and volunteers who work together to ensure that each client receives individualized, 24-hour care.
